PROFESSIONAL PROFILE

Analyst with experience in data analysis and visualization. Proficient in Excel, Python, Tableau, and PostgreSQL. Applying for the position of data analyst at your company to develop innovative solutions that drive business growth and outcomes through data-driven decision-making.

WORK EXPERIENCE

Hong Leong Bank | Digital Banking Intern

December 2022 - Present

- Identified, analyzed and documented defects in HLB app and with regression testing.
- Developed testing reports, reducing data to key insights that helped increase team efficiency by 15%. with Excel.
- Worked with the QA team on how to solve bug resolution more efficiently by suggesting ideas.

Meekco.asia | Web Development Intern

January 2022 - March 2022.

- Developed code for web pages, applications, and e-commerce sites utilizing HTML, CSS, JavaScript and Liquid, resulting in 25% increase in web traffic and increased the average time spent on the website by 35%.
- Analyzed large sets of ecommerce data to extract insights and inform business decisions using Excel.

RELEVANT PROJECTS

Predict fare of airlines tickets using Machine Learning (Python)

- Collect data on past airline ticket prices, including information such as date of purchase, destination, and any other relevant features.
- Use the model to make predictions on unseen data (i.e. future airline ticket prices)

Data Professional Survey Breakdown with Power BI

- Created interactive dashboards and charts that provided valuable insights into the discount mart's performance.
- Developed a wealth of information that can help guide your career decisions and give you a better understanding of the industry.
